

ACADEMIC STAR GROUP

GDC Darlaghat

Annual Activities (2025-26)

For the past three consecutive years, the Academic Star Group at Government Degree College Darlaghat has been constituted to recognize and support meritorious students, and this year marks the formation of its third consecutive group. This year, the group comprises students from all three years of study, with five students selected from each year, making a total of 15 members. The selection is based on their academic performance and class test results, and the nominations are made by their respective subject teachers. The primary objective of this initiative is to provide additional academic guidance and support so that these students can secure a position in the HPU merit list, even during vacation periods.

Mr. Akshay Kumar has been appointed as the mentor of the group. All faculty members have been directed to extend continuous academic assistance, including the provision of study materials and examination-oriented guidance, to help the students achieve maximum marks in their final examinations. Furthermore, a special workshop is being planned to strengthen their preparation and enhance their performance.

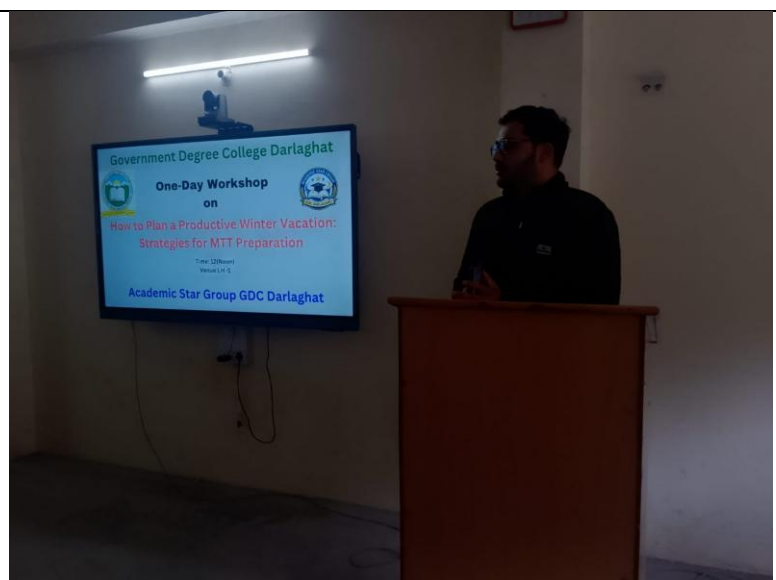

A one-day workshop titled **“How to Plan a Productive Winter Vacation: Strategies for MTT Preparation”** was organized on 29 December 2025 at Government Degree College Darlaghat under the Academic Star Group. The workshop focused on guiding students for effective preparation for the mid-term examinations and motivating them to secure positions in the merit list.

During the workshop, faculty members provided guidance on managing examination stress, enhancing answer-writing skills, and adopting effective time management strategies in the examination hall. Students participated enthusiastically in the session, and the faculty extended their best wishes for the forthcoming examinations scheduled in February.
