

5.5. Collaborations (MoUs are in office file of College)

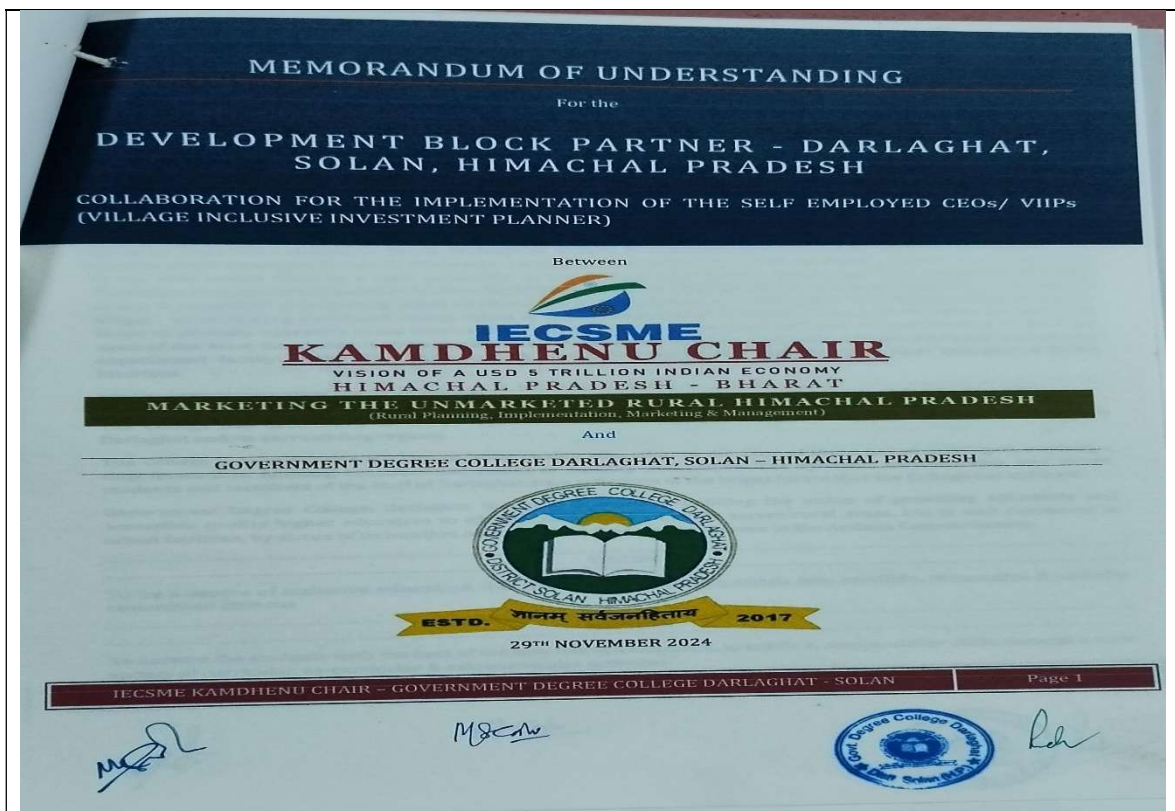

GDC Darlaghat remains committed to fostering innovation, entrepreneurship, and global academic engagement. Through strategic collaborations, the institution actively promotes skill development, research culture, and self-reliance among students. These MoUs reflect the college's dedication to academic excellence and sustainable innovation.

- MoU with IECSME Kamdhenu Chair and GDC Darlaghat

Signed on 29 November 2024, this MoU focuses on entrepreneurship development, self-employment training, and skill-based vocational education, encouraging innovation and startup initiatives among students.

- MoU with Perea Academic Centre, Israel and GDC Darlaghat

Signed in September 2024, this international collaboration promotes academic exchange, collaborative research, faculty interaction, and student research assistance, strengthening global academic exposure.

Dear Dr. Ruch Ramesh,

I am writing to formally request your assistance in my ongoing research project. Three years ago, I received a research grant from the Israel Science Foundation (ISF), grant No. 1212/21. The subject of my research is: **"Gods and Goddesses in the Western Himalaya - A Comparative Ethnographic Research."**

The objective of this study is to comparatively investigate how men and women perceive the *devīs* and the *devtās*. As part of this research, I would like to collaborate with the Government Degree College, Darlaghat.

I would greatly appreciate it if I could enlist the help of a research assistant from your esteemed college. The research assistant would be required to conduct fieldwork under my guidance.

Please note that the intellectual property rights of the research results will be exclusively mine.

I look forward to your positive response and the opportunity to work closely with your institution.

Thank you for your time and consideration.

Sincerely,

Dr. Asaf Sharabi, Ph.D
